IBT MEDIA

INTERNATIONAL BUSINESS TIMES

WHAT IS IBTIMES?

International Business Times, the main business unit of IBT Media, is a digital global news publication that delivers international business news to an audience of over 13 million people every month. At IBTimes, we take a country-agnostic approach to business news, providing in-depth coverage and analysis that is relevant and specific to each global market. We do so via a growing network of 11 in-language country editions.

WHY DO WE EXIST?

International Business Times aims to help the development of the global economy through global business news coverage. We desire to create new economic opportunities and development by closely following market trends and key events that are not necessarily covered by mainstream media, and connecting the dots. Our aim is to paint a truly unbiased and global economic picture for our readers, so they could make better informed decisions. At a time when globalization forces are increasingly prevalent, we realize the importance and value of homogenous business news coverage to global audiences.

EDITORIAL PHILOSOPHY

International Business Times provides the global audience context and intelligence, analysis and insight for the most critical and complex global business stories that impact their lives. As a granular news source, IBTimes focuses on the intersection of global business and geopolitics, covering topics that matter to readers around the world with intelligence and depth.
